

ASHRAE Technical FAQ

ID 32

Question Where do I get certified for refrigerant removal?

Your best source for information regarding field service is probably the Refrigeration Service Engineers Society ([RSES](http://www.rses.org)) - www.rses.org.

The nearest office of the US Environmental Protection Agency might be able to help. Additional information is available from the [U.S. EPA](http://www.epa.gov) - United States Environmental Protection Agency, Title 6, Section 608, Technician Certification Programs, (www.epa.gov)

Answer Other sources include:

[ACCA](http://www.acca.org) - Air Conditioning Contractors of America, (www.acca.org)

[AHRI](http://www.ahrinet.org) – Air-conditioning, Heating and Refrigeration Institute, (www.ahrinet.org)

ASHRAE publications on the subject may be purchased on-line at our website, www.ashrae.org or by calling 1-800-527-4723 in the USA and Canada or 1-404-636-8400 worldwide.

ASHRAE Pubs [ASHRAE Standard 147-2013](#), Reducing the Release of Halogenated Refrigerants from Refrigeration and Air-Conditioning Equipment and Systems.
